ABOUT THE EDUCATIONAL TECHNOLOGY PROGRAM

The Master of Education Program in Educational Technology is designed to provide advanced professional studies via 100% web-based distance learning in graduate level coursework. The coursework will develop capabilities essential to the effective design, evaluation, and delivery of technology-based instruction and training.

The program is intended to (1) prepare educators to assume leadership roles in the integration of educational technology into the school curriculum, and (2) provide graduate-level instructional opportunities for several populations that need to acquire both technological competencies and understanding of sound instructional design principles and techniques.

The graduate program is offered jointly by the USC Aiken School of Education and the USC Columbia College of Education. This program is AECT accredited and based on national standards. To find out more about this program visit edtech.usca.edu!

Master of Education (36 Credits)

Foundational Courses (6 hours)
EDRM 700 – Introduction to Research in Education
EDET 709 – Applications of Learning Principles

Design Courses (15 hours)
EDET 603 – Design and Developmental Tools I
EDET 703 – Design and Developmental Tools II
EDET 722 – Instructional Design and Assessment
EDET 755 – Design and Evaluation of Information Access and Delivery
EDET 793 – Advanced Instructional Design and Development

Technology Courses (12 hours)
EDET 650 – Internship in Educational Technology
EDET 735 – Technology Applications for Diverse Populations
EDET 746 – Management of Technology Resources
EDET 780 – Seminar in Educational Technology

Electives (3 hours) Choose one of the following:
EDET 652 – Design & Evaluation of Games and Simulations
EDTE 731 – Integration of Technology and Instruction
SLIS 706 – Introduction to Information Technologies
TSTM 790 – Advanced Study in Technology Support/Training Management

CAREER OPPORTUNITIES UPON GRADUATION

Graduates of the program are prepared to assume educational technology leadership positions in K-12 schools, higher education institutions, corporations, government agencies and foundations. Graduates may find positions such as technology integration specialist or staff developer at the school, district or state level; developer of multimedia for education and training; or designer and instructor of online distance education for schools or corporations.
