1 - A grade of C or higher is required in all chemistry courses counting toward the degree. Students placing in Mathematics 108					

- 1 A grade of C or higher is required in all chemistry courses counting toward the degree. Students placing in Mathematics 108 or below will successful complete these courses before enrolling in any chemistry course. A maximum of 48 hours of Chemistry courses can be applied toward graduation.
- 2 Students must complete English 101/102 with a grade of C or better in order to fulfill general education requirements. Students must complete AEGL 102 with a grade of C or better before taking other English courses.
- 3 At least three (3) credit hours of the degree must be in non-Western studies.
- 4 APHY 212 can be counted toward a cognate.
- 5 Two (2) semesters of the same language (French, German or Russian is recommended for those planning graduate studies in Chemistry).
- 6 ABIO 541 is a pre-requisite for ACHM 550 which is taught every other year. ABIO 541 may be moved to Fall of the Fourth Year when ACHM 550 is offered in Spring of the Fourth Year.
- 7 Strongly recommended. The course is offered Spring every other year.
- 8 Students who wish to have a minor may have to take more hours than those who select a cognate.
- 9 Completion of a thesis and seminar on the research project are required for graduation. (March 2009 Revised)
